

R.

**Message from Commander Danko:**

Ahoy, here we are into March, already. Even though we have had a brutal few weeks, I believe the worst is over. Let us begin to think positive, into the future, and when our first boating outing shall be.

I had the pleasure of attending the USPS Annual Meeting in Jacksonville, Florida, last month. Many good times were had attending meetings, seminars, and parties. The weather was beautiful with temperatures in the 60-70's. Next year we go to Texas.

The Educational Department with support from the Operating Committee had proposed a plan to increase membership by waiving the requirement that makes passing a basic boating course with proctored exam a necessary requisite to USPS membership. The proposal passed and, now, squadrons are free to accept members without this requirement. The waiver expires in three years. Now is the time to take advantage of this opportunity to recruit experienced boaters and benefit from their wisdom.

Should this continue, we will be extinct in another 15. Imagine all the good, we have had in the past, and it is gone tomorrow. Think about it, please.

The MHPS Change of Watch will be held on 21 March at Greenbaum and Gilhooley's in Wappingers Falls. I shall be leaving the Bridge as Commander, but will be pursuing other squadron interests. I plan on teaching, mentoring, and recruiting, as well as whatever else is needed for our squadron to survive. I to

take this want opportunity to thank everyone: members, the Executive Committee, and my Bridge for your help and support over the last two years. As we go forward, please be assured that my influence will continue and I am always available to counsel and advise.

## EDUCATION, OUR MOST IMPORTANT SERVICE

Our Boating Course is starting on March 13 at the Haviland Middle School at 1900. We need presenters and proctors along with members to help in general with check in and other routine tasks. This is our most important class and the source of new members so it is very important that we have a good showing. Any questions please call me.

Here is a NautiBender for our weather class students who are now about half way through the course:

A falling barometer with winds from the East usually means \_\_\_\_\_ weather.

A rising barometer with winds from the West usually means \_\_\_\_\_ weather.

Answer to be found elsewhere in this issue.
