UNITED STATES
POWER SQUADRONS®
May, 2008 No. 525

Message from Commander Smalley:

MAY 2008

Wow! What a warm April. Hopefully you have been able to get a head start on the yard work and the boat work. We are busy preparing for our annual rendezvous with the Shallow Water Sailors down in the state of Maryland on the Chester River, which flows into the Chesapeake Bay. We spend a weekend sailing, rafting, eating, camping and enjoying the fellowship of our group. With ten to twelve boats in our gathering, it's the first sail of the season for many of us.

Here on the Hudson, the boating season has begun. As I travel along the river on various roads and cross various bridges, I see pleasure boats out already.

Yesterday, visiting with Michele Tarsa, who has a home on the river in Athens, we saw a loon, a racing pigeon, a pleasure boat, fishing boats and a tugboat towing a barge of garbage. It is wonderful to watch. The point is: go to the river!

The Mid-Hudson Power Squadron had its annual fundraising auction, to support educational activities, not supported by other agencies. Taking place on Saturday, April 12, 2008, our host, the Poughkeepsie Yacht Club, gets many thanks for their support and attendance by many members. Our friends of the Storm King Power Squadron also deserve big thanks for their support, and will hold their auction on May 14th. Please see the flyer in this edition of the FOGHORN. Many nautical items as well as gift certificates to restaurants and other businesses were available. We even had paintings from one of our members. The evening was very enjoyable with good food, at the pre-auction potluck dinner, good company and good laughs.

This past Saturday, April 19, Cdr. Pat and P/C George Danko taught a "Safe Boating for Kids" class at the Beekman Library. We were very pleased with the enthusiasm of the students as well as one attendee father. We will try to schedule another class later in the summer. This class is a three hours, hands-on interactive set of lessons for elementary age children. It is free. If anyone would like to schedule a class, contact the commander or any other person on the Bridge.

The May Executive Committee will meet Wednesday, May 7, 1830 at Coppola's La Fantasia Ristorante, in Highland, on Route 9W, directly next to the Gateway Diner. **All** members of the squadron are welcomed.

Our next big event is our Annual Educational Awards and Recognition Dinner, scheduled for Wednesday, May 21, 2008. The meeting will take place at a **new** location. Look for details elsewhere in the FOGHORN. Please plan to attend to help recognize and honor those students and instructors that have supported the main mission of our organization.

Get outside and enjoy the nice weather and prepare for another boating season. Don't forget to take pictures of your boating and other adventures, so you can share them at our sharing meeting in 2008.

Till next tide,

Pat Smalley, Commander

The Mid-Hudson Power Squadron Monthly Membership Meeting:

The Mid-Hudson Power Squadron
Annual "EDUCATION MEETING" Meeting

When: Wednesday, May 21, 2008 @ 18:30

Where: Thai House Restaurant
728 Violet Avenue (Route 9G)
Hyde Park, NY 12538
www.thaihousehydepark.com

Uniform: A or B or G

Mid-Hudson Power Squadron Annual Marine Auction

12 April 2008 at the Poughkeepsie Yacht Club

The Crowd is ready to bid!

The group is ready to collect the cash.

We found Clare, hiding in the corner.

Ed Weber and John Kwak demonstrate.

Can't bid on an empty stomach-pot luck supper before the festivities.

A good-looking crowd is eager to bid.

Who is this? What a pitch!

Good stuff and priced right!

AUCTION THANKS

From Auction Chairman, Lt Donald Gladstone, P

The participation of our squadron members, our special friends from StormKing, and the Poughkeepsie Yacht club have made our 2008 Marine Auction a huge success, and I wish to thank everyone for their involvement and support. Special mention go to auctioneers Ed Weber, John Kwak, and George Danko for their humor, wit and charm. I wish to also thank Andy Williams, Pat Smalley, Joe Todaro, Minke Kwak, Dick Winchell, and Barbara Grey Black for their special set-up, billing, and collection skills, and to all who bid and bought merchandise. Once again, thank you, everyone, you are the best. Lets do it again, next year.

The Health Corner

By Gladys Suessle

Flying off a scooter and breaking my leg was not the way I wanted to start the weekend. Flying through the air in a plane would have been great, but going through the air and landing on blacktop and breaking my left leg in 8 places and my right wrist bones was not fun! I ended up in the operating room at Vassar Hospital and when I woke up, I had a screw inserted on the side of my knee and a halo with 6 pins and wires going through my knee area. To prevent my leg from twisting, they drilled holes in the lower part of my tibia and attached a handle to there and to my knee area and put a similar device on my hand and arm. I truly looked like the Frankenstein Monster! I was transferred to St Francis Hospital for rehab (to strengthen muscles and walk again). The doctors insisted that I was NOT to take any of my Vitamin, Mineral and Protein supplements, as they would “interact with the medication”. I explained that they were made from real foods and would help the healing. They refused to listen. After 2 weeks at St Francis (now 5 weeks since surgery), I developed a systemic staph infection and an abnormally high platelet count. They wanted to put an IV with an antibiotic in my neck and give me Heparin injections in my belly. At that point I rebelled and refused it! I told them that I was going to try my Vitamin Supplements for 1 week and if that didn't do it, I would try their way. Five days later they took blood and miraculously, the staph infection had gone away and my platelet count was back to normal!! The total healing took 6 months instead of the 9 months the doctor had told me it would be, based on his prior experiences and that I would have to use a walker or a cane the rest of my life. I was so excited because now this was the third major health condition that had been resolved with the use of these Supplements and no cane or walker for me!!!

My passion therefore has become to educate people on how they can achieve optimal health. People tell me all the time that I'm healthy. When I ask what ailments these same people have they say arthritis, asthma, high cholesterol, heart problems, diabetes, osteoporosis, cancer, headaches, etc and they give me the litany of medications they are on. BUT, they are healthy as long as they take their meds. Folks, that is NOT good health. That is

sickness with the symptoms masked over. The root cause of the problem is still there. Once the causes of the problems are eliminated, then you are at optimal health. The ONLY way for this to happen is for your own body to heal itself. You may ask, how does the body heal itself? Simply put: through proper nutrition and a working communication system of nerves (chiropractics).

Remember, EVERYTHING you put INTO your body (healthy food, prescription & over the counter drugs, alcohol, juice, water, candy, soda, junk food, etc) and ON your body, which absorbs into the blood has a good or bad effect. By this I mean that your body is constantly making new cells as old ones die. You are making millions of cells every day. Are you making healthy cells or junk food cells? Let's say your body is making heart cells today. Will those cells be healthy or will they be deficient so that down the road you will end up with a heart problem. If you get enough unhealthy cells in an organ, that organ will be prone to disease. Are those meds or cigarettes or junk food or toxic cleaning products creating problems? They most likely are. EVERY disease can be reversed, as long as you supply your body with the proper Nutrients for a long enough time so that your immune system becomes very healthy. When your immune system is working to its optimum, your body will be able to fight off many viruses and bacteria that assault your body constantly. As we get older, our immune system is less efficient, so older people are more prone to getting sick, but please do not buy into that we should expect inferior health because we are older. Your body can be as healthy as you CHOOSE to make it. Your organs will start to work properly and where they have not made, for instance, insulin, they may start producing once again. Remember, injected insulin is not a cure. It just gives you another day of life. Many of us are deficient in vital Vitamins, Minerals, quality Protein as well as antioxidants. Our stomachs and intestines are a bit sluggish. We take a drug to counteract the effects of another drug and it becomes a vicious cycle.

If you truly are willing to make some changes and add some things to your diet to create optimal health, I want to help.

Health & Blessings to all!

FOGHORN staff writer. Ms. Suessle may be contacted at (845.635.2162) or gsuessle@aol.com
